

TPR UX8 DMX CONTROLLER

IP44

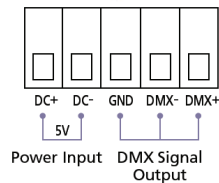

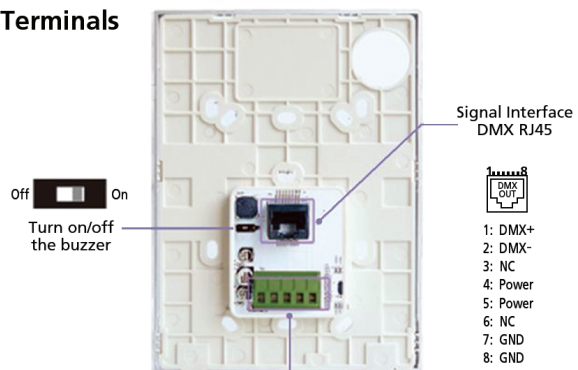

Description:

The **TPR UX8 Controller** is a DMX wall pad for Architectural lighting control. It has pre-set functions or can be assigned solid colors by the user. There is also a color dial and a white button as well as an on/off – Blackout button. Additionally, there are four user assignable save buttons. Its sleek design and ease of use make it an ideal controller for smaller RGB/RGBW projects.
