

TPR MIRAGE™ LIGHT PANEL RGB

IP65

TPR MIRAGE LIGHT PANEL RGB

Description:

The **TPR Mirage™ Light Panel RGB** is a low profile, solid state lighting fixture for Architectural and Entertainment use. It is IP65 rated for wet locations, uses state of the art LED technology, and is available in several sizes. It is the perfect fixture for back lighting acrylics or glass, and at only 24 Watts it is extremely energy efficient. When used in conjunction with the WestPower®300, multiple units can be run from one control box.
