

## TPR Dim-to-Warm 100W Driver (24VDC)

IP20

### Description:

The TPR 100W Warm to Dim 24V driver is a constant voltage, flicker free, 0-10V dimmable driver perfect for signage, architectural, high end retail, home, and many other applications!

### Specifications:

Input Voltage: 120-277VAC

Storage Temperature: -40 to 85°C

Length (L): 11.46"

Output Voltage: 24VDC

Max Operating Temperature: 90°C

Width (W): 3.00"

2 X 0-10V dimming outputs

UL/cUL Class 2 Compliant

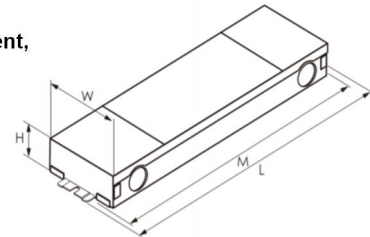

Height (H): 1.30"

Mounting (M): 11.02"

Operating Temperature: -30 to 60°C

Protection: Over Temperature, Over Current, and Short Circuit

Frequency: 50/60Hz
